

Chic Modern Contour Bed For The Pet Needing Luxury

The contour bed is great for pet owners looking for chic gifts in their luxury homes.

Description: Only dreams of sugar plums will happen on this bed. It's chic, modern and luxurious. Inspired by modernist designers Charles and Ray Eames, the Contour modern dog bed was conceived for bigger dogs (or for smaller dogs or cats who like to bunk together). The Contour's micro-suede, reversible cover gives you two beds in one: by simply reversing the covers, you can instantly change the look from a stylish fashion color to more neutral, and back again. The cover is machine-washable and can zip on and off in just seconds. The Contour bed comes with a sleek aluminum frame. It's durable, water-resistant nylon shell can be wiped clean and inhibits odors from permeating the bed.
